SCIENCE

Light

Recognise that they need light in order to see things and that dark is the absence of light

Recognise that shadows are formed when the light from a light source is blocked by an opaque object

Find patterns in the way that the size of shadows change

Plants

Identify and describe the functions of different parts of flowering plants

Explore the requirements of plants for life and growth

Investigate the way in which water is transported within plants

Explore the part that flowers play in the life cycle of flowering plants
